BRUNELLO DI MONTALCINO RISERVA 2010

DENOMINAZIONE DI ORIGINE CONTROLLATA E GARANTITA

Grape varietal: carefully selected 100% Sangiovese Grosso also known as "Brunello" in Montalcino

Vinification: long fermentation on pomace, with frequent pumping of the wine over the cap, maximum temperature left to rise freely up to 32°C

Ageing in wood: 36 months in medium-large Slavonian and French oak barrels

Refinement in bottle: more than the required minimum of 6 months, in compliance with the production discipline, in airconditioned rooms

Colour: intense ruby red tending towards garnet

Bouquet: elegant and fruity, very intense and complex with balsamic notes

Taste: great structure and elegance, harmonious, austere, extremely persistent and deep

Food pairings: flavoursome dishes like roasted red meats and game, seasoned cheeses. Try with plain chocolate. Open the bottle at least two hours before to let the wine breathe. Serve at 18° C in large crystal glasses

First vintage produced: 1993

Size bottles produced: 750 ml – 1.968 bottles

Climate conditions: A perfect climate with a snowy and rainy winter waters the ground deeper. Thanks to that, vines didn't suffer a dry July, while in August had difficulties to start veraison caused by no water stress. After September characterized by important temperatures excursions higher than 10°C between day and night, grapes were ripe while still in vegetation. We got very high quality grapes, perfectly ripe with absolute values not easy to find in Sangiovese varietal. A great vintage to remember.

Vintage rating: ★★★★★
